EXPERIENCE

INDEPENDENT • SHOR-TECH • 2018 – 2022
I have a small advertising and marketing business on Telegram platform, I developed several Python bots in addition to hiring external developers from UPWORK to help with problematic features, create a detailed characterization and manage the developers.

PROJECT MANAGER WEB • CODE AND CORE • 2021 – 2022
Project manager through communication with the customer and understanding the product, passing detailed instructions to the designers, creating a characterization document for developers, managing and testing the programmers on a regular basis.

IOS DEVELOPER • TELEPRIME • 2015 – 2017
Junior iOS Developer – I was hired by my lecturer for this position. As part of my job, I uploaded the apps to the app-store, handle bugs, help develop new features, managed the UI and more.
I worked for about a year and a half total, six months as a freelancer and a year as an employee.

EDUCATION

Mobile development • 2015-2014 • HACKER-U
High School Computer Program • Pascal
